

TOPfresh

DESCRIPTION:

Topfresh is a packaging to extend the life of your fruit, vegetables and flowers! This packaging slows down the natural ageing process by removing harmful gasses whilst ensuring that produce does not dehydrate.

A packaging with a special recipe made of LDPE film removes harmful gasses from within the bag and slow down the natural ageing process.

Application:

- Home packing
- Flowers
- Retail packaging
- Bulk packaging

Advantages:

- Your product will stay longer fresh
- Printable up to 10 colours
- Allows you to use sea freight for floral good
- Improves the shelf life and quality of your product
