

Breadpackaging

Presentation – Communication - Hygiene

DESCRIPTION:

Packages are indispensable for the bread sector. Presentation, communication and hygiene are important functions of the packages in the bread sector.

Oerlemans Plastics is a specialist in producing flexible synthetic packages for bread in the bakery sector.

Oerlemans Plastics produces almost every product custom made. Therefore you have got the opportunity to print your packaging up to 10 colours. Besides that there are lots of standard products available from stock.

Qualities:

L(L)DPE – MDPE – HDPE – COEX – CPP – BOPP – SCOP - Bio-degradable & **CRISPY**

Crispy is a high glossy and crispy film quality which is useful for quick bread wrap lines as well as hand packaging in retail. You have got a very high presentation value with packaging with a full colour print on the front and back side.
